

"Let the Experts Help you Embark on Your Dream Career"

REGULAR TEACHING PROGRAMME

Gyan Bindu Academy has made comprehensive classroom study Programme for purpose of admission in different Ph.D. courses from JNU / DU / IIT / BHU / TIFR / IISc / ICMR / AIIMS etc. by cracking the CSIR UGC JRF NET Life Sciences exam. The main feature of this course is that students with subject understanding at all levels, from basic to advance, can get benefit from the course JRF NET Life Science Coaching. The Classes are taken by Eminent Professors, Top Rankers and educationist with long time teaching and research experience in their respective fields. The classrooms are equipped with most modern teaching gadgets including LCD colour projectors which make highly visible presentation of the complex topics so that students' can understand the with the help of colorful diagram/animations and systematic write up. We provide study material and all India Test Series / Offline and Online for regular student.

We also invite visiting faculty from different universities to take up important topics. Study material with all relevant details is provided to the all classroom courses students during the sessions. Regular assignments are provided to the students for self-practice. Proper emphasis is given to creating, both objective and conceptual questions solving abilities of the students in the assignments. This course basically aims at utilizing the classroom time in best possible way to crack this NET Life Science exam.

Classes are conducted for Three to Five hours daily, Five to Six days in a week for around five months. We also give great emphasis to discussion classes and doubt clearance classes. The assessment of students' performance is done on regular basis via unit tests based on examination pattern along-with relevant discussions in the classes. After completion of course, test series are conducted for one week before the examination. Test series are conducted separately for CSIR-UGC-NET/JRF & GATE Examinations. www.gyanbinduacademy.com

Requirements

- Desk Top, Laptop, Tablet & Mobile etc.
- Internet Connection
- Web-Cam

CORRESPONDENCE TEACHING PROGRAMME

The Benefits of Correspondence Course

Many working students wish to qualify the exam for advancement of their career, but cannot spare time to attend the regular classroom courses. These working students can always avail our correspondence programme. This programme basically provides them the study material which is prepared topic wise, along with many question papers. The correspondence material is absolutely self-explanatory and will compensate for the absence of classroom coaching. The material covers 80 to 90% syllabus and is more than sufficient for qualifying the exam. This programme offers simplicity of learning at your home and at your pace, while qualifying for your Doctorate's degree. Also those in the job, but with a desire to clear this exam can achieve their goal without quitting their regular work. The biggest benefit of the course is that you get to learn at your pace as per your schedule. The correspondence material is self-explanatory and thus will compensate for the absence of teacher in a distant learning mode. However, for clearing the difficulties of the students, we clear the doubt telephonically or through internet/email.

The questions asked in CSIR UGC JRF NET Life Science exam are of analytical nature and designed to test a candidate's knowledge of scientific concepts. The course material is written in most scientific way to serve this purpose. The authors are top rankers of the JRF/NET/GATE & Professors are from top universities (& Institutes) JNU/DU/IITD/AIIMS etc. Once you start following our material, you need not refer to any other study material. What's more, the material is as per the latest pattern upgraded to reflect the latest JRF/NET and Ph. D. entrance trends. Without exception, all students who've referred to our material for a significant amount of time, place it far above other courses in terms of quality.
